Forecast for Tuesday 31 May 2022

Weather: Low cloud through the early hours lifting and becoming broken during the morning to give some bright spells but also scattered showers, these heavy at times with the odd rumble of thunder possible in the afternoon. Showers quite frequent around and south of Torridon. More isolated further north but chance of some low cloud later in the evening.

Chance of cloud-free hill tops above 800m: 50% improving to 80% mid to late-morning. Decreasing 50% in the north in the evening but chances remain good elsewhere.

Low cloud and visibility: Low cloud with occasional bases 600 or 700 m through the early hours, lifting and becoming broken mid to late-morning. Cloud mostly above summits thereafter although around tops at times during showers, and low cloud possibly down to 500 m in the north during the evening. Very good visibility occasionally poor in heavy showers and very poor within low cloud.
